

WiseDive Handheld

The cure for darkness

Incredible brightness

Pick up a WiseDive light and turn it on. It delivers an incredible amount of light. With an output of 3,300 lumens it is by far the world's most powerful handheld dive light. Yet all of this power fits smoothly into your hand in a compact, rugged and reliable design that stands up to the most challenging of environments. WiseDive lights are waterproof, heat/cold and shock resistant.

Zero maintenance

WiseDive lights are designed to work under the most challenging conditions - year after year. They deliver up to 32 hours of continuous operation on a single charge (try that with a traditional dive light!). And you can forget about replacement bulbs and batteries.

The WiseDive light require zero maintenance. 50,000+ hours of LED, the batteries deliver up to 500 recharges. After 300 recharges the battery capacity will be decreased by 20%. We back all our products with a 2 year guarantee (limited guarantee for the batteries). Simply, we believe this to be the finest professional dive light in the world.

Important

WiseDive lights have to be kept fully charged at all times. Our warranty will not cover lights that have been left uncharged for a period of two to three weeks, as this will significantly deteriorate the battery.

The Li-ion batteries chemistry is not able to survive longer periods without energy so if not charged with a timely interval your batteries will get less efficient and the chemistry inside will eventually give up. Remember always to fully recharge your flashlight before storing it for longer periods of time!

Warranty

Guarantee conditions: You have a 2 year guarantee (limited guarantee for the batteries) if any problems arise with your WiseDive product. Return your WiseDive product to our address after which we will correct the problem as soon as possible or alternatively send you a new product.

Vandalism, misuse or the like are not covered by the exchange rights. Enclose your receipt when exchanging the product. The warranty will become null and void if the product is misused, abused, tampered with or taken apart.

TECHNICAL SPECIFICATIONS

- 7 LED Efficiency 3300 lumens in boost mode
- LED lifetime 50,000+ hours
- Battery: Rechargeable Li-ion
- Battery capacity: 11.1 volt, 5.2 amps
- Light output duration:
 - 100%: 3 hours
 - 80%: 4 hours 20 min
 - 60%: 5 hours 40 min
 - 40%: 8 hours 20 min
 - 20%: 31 hours 55 min
- Dimmable: 5 steps
- Submersible: 500 feet
- Lens: 6 degree half angle
- Anodized Aerospace grade aluminium
- Grip: Thermo plastic rubber
- Strobe effect: 500 watts (non-lethal weapon)
- Usable light: Range min. 1200 feet (1 lux)
- Signalling: 10 miles in clear weather
- Weight: 710 grams / 25 oz
- Size: Fronthead diameter 75 mm / 2.95"
- Body diameter: 46 mm / 1.8"
- Overall length: 227 mm / 8.9"
- Build in taillight
- Battery indicator
- Several of the flashlight's functions can be controlled and customized through special software installed on your computer
- Build in antitheft chassis number
- Self-discharge time: 5 years
